OBJECTIVE

With 1.5 years of hands-on experience in full stack development, I'm looking to join a team where I can apply and grow my skills in building modern, scalable applications. I specialize in frontend technologies like React.js, Laravel, and Flutter, and have backend experience with PHP, Dart, JavaScript, and C. I'm also well-versed in databases including SQL, MySQL, MongoDB, and Firebase. I enjoy working on cross-platform solutions that solve real-world problems, and I'm eager to contribute to projects that value clean code, collaboration, and continuous innovation.
